**SHARING KNOWLEDGE,  
RAISING STANDARDS,  
BUILDING CAREERS.**

*You see a welder. We see a nation builder.*

Our Training module Prospectus consists of a large portfolio and caters to entry level skills AND specialisation skills for welders, technical skills for supervisors and engineers and skills in the discipline of design, production and QA for manufacturing.

The primary content in all skill programs is based on the Kinaesthetic model of " learning through doing"! A special module - EASEWELD- has been developed for entry level, where students learn dexterities on Simulators. Digital modules provide flexibility to learn "anytime-anywhere". Employability skills development is an essential part of our curriculum. Modules for Short-term, skill enhancement programs for in-service workmen/women are also available.

Wide Portfolio of Training Module & Learning Documentation

Training for  
IBR Code,  
AWS D1.1-XX,  
D17.1 , 6GR,  
ASME Section IX, etc

## ADOR WELDING ACADEMY - WELDING DOMAIN EXPERTS

ADOR WELDING ACADEMY PRIVATE LIMITED is a 100% subsidiary of ADOR WELDING LIMITED (formerly Advani Oerlikon Ltd) - a pioneer in welding industry in India and in service for over 60 years. Skill Training at ADOR has been an integral part of the business activities for the last over 4 decades. The Academy also develops innovation-centric tools to support the welding skill development and technical education eco system. The academy draws its strength from the human assets it possesses- veterans from the welding industry, content & pedagogy experts, technology partners that complement the skill development portfolio of products and services. Its long & close association with the industry helps it to keep its portfolio relevant to contemporary industry expectations- thereby enabling a high employability factor for the trainees undertaking these programs. The academy closely interacts with the related Sector skill councils to give inputs for the NOS & QPs related to welding skills, and for developing relevant training contents & modules. A visit to the academy will enable witness the entire range of our deliverables
